2025 FEMA Wildfire Risk Map

AS YOU CAN SEE FROM THE MAP ABOVE, RUBY RANCH IS HIGH RISK OR HIGHEST RISK.

For a current map of wildfires in Colorado, [CLICK HERE](#). (An easy way to navigate is to click past the instructions and just zoom up the map.)

PREPARE YOUR HOME:

WILDFIRE PREPARED HOME CHECKLIST: [CLICK HERE](#) for more details.

Have your **Immediate Zone (0-5' around home)** ready at all times!

You may not have the time to rake, remove debris, clean your gutters/roof valleys, move flammable furniture and entry mats away from the house if you need to evacuate immediately.

LEAVE EARLY!

Do not wait for a mandatory evacuation order.

Getting out of Ruby Ranch is one thing - getting onto Highway 9 is another! Leave early to avoid driving in smoke, flying embers, and panicking people.

- Keep your cars charged/filled with gas.
- Have your EVACUATION PLANS AND GO BAG ready:
 - People
 - Pets
 - Pills
 - Personal (computers, papers, phones, pictures)
 - Plastic (credit cards and cash: if power/connectivity is out, credit cards do not work!)
- **SC alerts:** [CLICK HERE](#) to sign up if you haven't received any alerts yet this summer - we've had many! SC Alerts changed platforms - you **MUST** re-sign up.
- Create a CHECKLIST of things to do as you leave: Close all doors (inside and out) and windows; consider leaving front door unlocked so emergency personnel can get in easier if needed: Summit County Police will have our neighborhood blocked off from anyone entering if we are under evacuation, so there should not be strangers....)
- **PLAN TO HELP YOUR NEIGHBORS!** Make sure you can call someone to rescue your pet and close up house if you are away.

Check our “ready, set, go” webpage for more info ([CLICK HERE](#))

SMOKE:

Find air cleaner info, mask info (N95 masks again??), DIY home air cleaner info, and learn more about HEPA and MERV ratings on our website. Please [CLICK HERE](#).
